

JESWELL MATHEW

jeswellmathew@gmail.com | (217) 390 7347 | [linkedin.com/in/jeswellmathew](https://www.linkedin.com/in/jeswellmathew) | Champaign, IL
Technical Product Management | Business Strategy | AI & Transformation

CORE COMPETENCIES

Business & Strategy: Product Management, Go-to-Market (GTM) Strategy, Market Analysis, Cross-Functional Leadership, Agile/Scrum Methodologies, SDLC Management, Roadmap Planning, Business Intelligence.

Technical Literacy: Agentic AI, Multi-Agent Systems, RAG Pipelines, Cloud Infrastructure (Azure, AWS), CI/CD Pipelines, Microservices Architecture, Python, SQL, Full-Stack Architecture (Angular, React, Next.js, .NET).

EDUCATION

University of Illinois at Urbana-Champaign | Champaign, IL

August 2026

Master of Science in Technology Management (MSTM), Gies College of Business

Relevant Coursework: Analytics for Management Decision Making, Big Data Analytics, Information Systems.

National Institute of Technology, Calicut | Calicut, India

May 2023

Bachelor of Technology in Computer Science and Engineering, Graduated First Class

PROFESSIONAL EXPERIENCE

University of Illinois Urbana-Champaign | Champaign, IL

Jan 2026 – Present

Teaching Assistant - Business Practicum

- **Strategic Partnerships (Bosch):** Directed the technical execution and project scope for a corporate partnership, prototyping an automated issue-tracking portal using RPA and APIs to streamline operational workflows.
- **Data Strategy (AWG):** Conducted complex market analysis on sales data using Python to map competitive pricing responses, delivering actionable intelligence frameworks to senior leadership for pricing strategy optimization.
- **Consulting Mentorship:** Partnered with faculty to mentor student consulting teams on navigating unstructured business problems, bridging the gap between technical implementation and strategic project execution.

MRO Corp | Pune, India

Aug 2023 – Aug 2025

Software Engineering Analyst

- **Release Management:** Orchestrated CI/CD pipeline strategy in Azure DevOps, accelerating deployment frequency by **70%** and ensuring **99.9% reliability** for critical enterprise healthcare products.
- **Agile Transformation:** Led cross-functional team retrospectives and implemented Scrum process improvements, **reducing sprint carry-over by 70%** and significantly enhancing delivery predictability and sprint velocity.
- **System Optimization:** Directed the architectural **optimization of 5+ microservices**, achieving a **40% reduction in data retrieval latency** to directly improve the user experience and operational efficiency of clinical platforms.
- **Stakeholder Alignment:** Partnered with business stakeholders to translate clinical requirements into actionable UI/UX strategies for an Angular-based frontend, supporting the daily workflows of **300+ healthcare professionals**.
- **Recognition:** Awarded the '**Extreme Ownership Award**' for driving proactive solutions and rapidly translating complex technical challenges into strategic business outcomes.

Spinebiz Services | Chennai, India

May 2022 – July 2022

Intern – Automation and Datamation

- **Operational Efficiency:** Identified critical workflow bottlenecks in visa processing and architected a Power Automate solution, **eliminating 12 hours of manual data entry per week**.
- **Product Rollout:** Led the end-to-end design and rollout of a Zoho Creator capacity management application, defining business logic and driving successful internal adoption across the enterprise.

STRATEGIC & TECHNICAL PROJECTS

Magelli Scout Prospect Intelligence System | 1st Place, Gies AI for Impact Challenge

April 2026

Architected an AI-driven multi-agent system, evaluating market viability and defining the operational business case for automating data ingestion to accelerate enterprise go-to-market workflows.

Zolve (ZKart) Product Strategy Case Study

June 2026

- Conducted an end-to-end product analysis on the ZKart e-commerce marketplace, mapping the user journey to identify technical friction points (routing, infinite scroll bugs) and conversion bottlenecks.
- Developed comprehensive retention and GTM strategies designed to boost daily order volumes and drive credit card utilization within a 30-day target window.

ILL 101 Campus Workspace Dashboard | BADM 555 Information Systems Final Project

Jan 2026 – May 2026

Led the product design and UX prototyping in Figma for an Information Systems campus workspace application, mapping the technical infrastructure to operationalize resource management.

F1 Autonomous Predictive Analytics Pipeline

June 2026

Designed the system architecture for an autonomous predictive model utilizing RAG pipelines and automated data orchestration, aligning notion outputs with rigid time constraints to optimize strategic decision-making.

LEADERSHIP & STAKEHOLDER MANAGEMENT

Program Committee & Joint Coordinator | Ragam '21/'22 (Cultural Fest)

- **Event Operations & Team Leadership:** Directed logistics and operational planning for a large-scale event with 30,000+ attendees, leading a cross-functional team of 40 volunteers through task delegation and real-time problem-solving to ensure seamless execution across multiple venues.

Joint Secretary | NITC Industrial and Planning Forum

- **Strategic Partnerships:** Co-hosted the NITCMUN in collaboration with the London School of Economics, managing stakeholder relationships and coordinating with delegates from 50+ institutions.
